

TITAN

MULTIGYM

With no moving parts, the TITAN bodyweight multigym is completely tamperproof and was specifically designed for safety and security.

Real Fitness Equipment for Real Results

The TITAN Multigym takes the basics of indoor commercial fitness equipment and delivers it to the outside world in a tamperproof, durable, and weatherproof package.

Compact, cost effective, and completely safe, the TITAN is designed for any fitness level or ability.

 **TAMPERPROOF.**  **WEATHERPROOF.**  **SAFE.**

COMPLETELY TAMPERPROOF

The TITAN is engineered with a completely tamperproof design, ensuring unmatched durability and security. With no moving parts, it eliminates pinch points and entrapment zones, significantly reducing the risk of injury. Built to withstand heavy use and harsh conditions, the TITAN sets a new standard for safety and reliability.

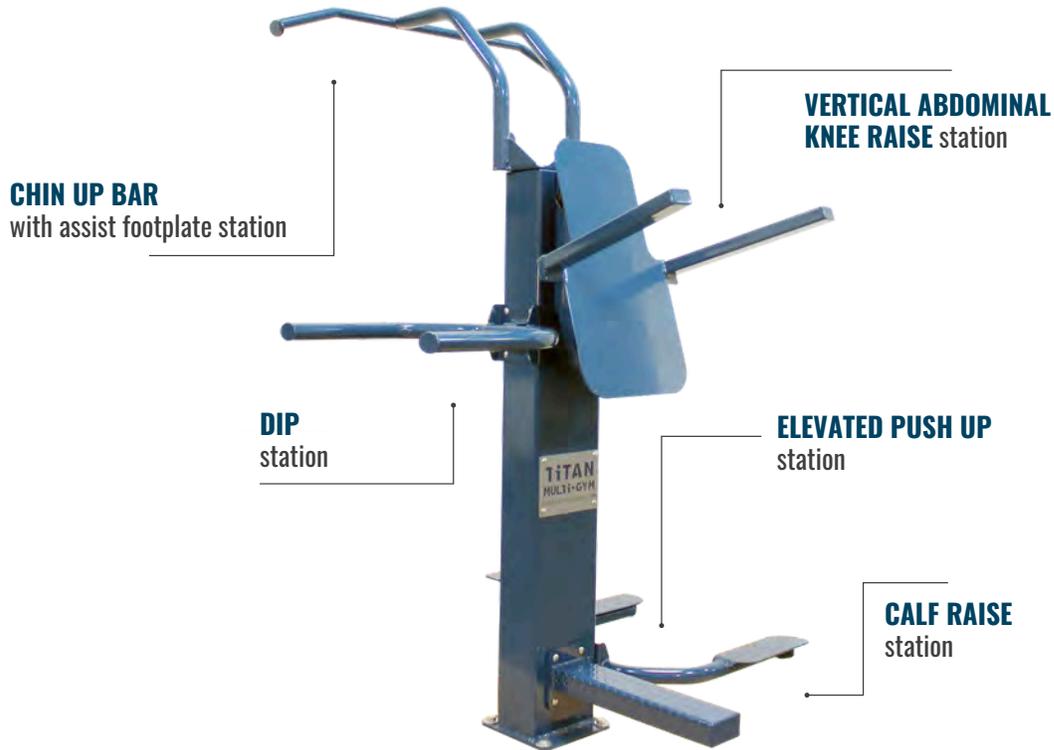

13 DIFFERENT EXERCISES

The TITAN is designed with 13 different exercises, offering a full body workout. Its multigym design allows users to move around the equipment in a circuit training format.

4 SIMULTANEOUS USERS

The TITAN is designed to optimize your space by allowing up to four users to exercise at the same time. With multiple workout stations integrated into its compact and efficient design, the TITAN enables group training while maintaining safety and ease of use.

The TITAN is built to maximize indoor or outdoor exercise areas, with 13 exercises available:

TECHNICAL SPECIFICATIONS

Width: 54" / 138 cm

Length: 57" / 145 cm

Height: 85" / 216 cm

Weight: 253 lbs / 115 kg

Fall Height: 84" / 213cm

Use Zone: 12'4" x 8'10"

Shipping Weight: 385 lbs / 162 kg

Shipping Dimensions: 36" wide x 80" long x 30" high /
91 cm wide x 204 cm long x 76 cm high

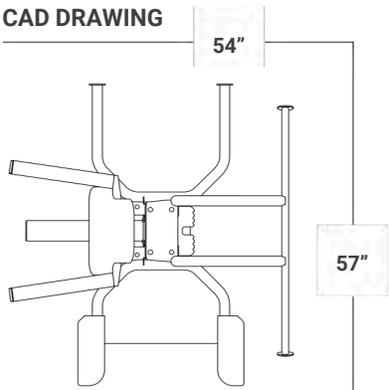

Frame: Constructed of 3/16" and 1/4" thick heavy-duty steel. All fasteners are tamperproof stainless steel carriage bolts with a smooth, rounded head and square neck. The locking nuts are shielded behind a padlocked access hatch.

Finish:

- All parts have surfaces prepped and cleaned of all mill scale, rust, oils, and dirt using shot blast and/or chemical wash.
- Primer coat is applied with epoxy zinc-rich primer (3-4 mil thickness) and cured in oven. Primer designed for superior rust protection. Tested for 3000 hours of salt spray resistance.
- Top finish coat is applied with TGIC-FREE weather-resistant polyester powder (3-4 mil thickness) and cured in oven. Tested for 1500 hours of salt spray resistance.
- All parts inspected to be free of paint defects prior to shipping.
