VersaFrame™

MODULAR BEAM SEATING

VersaFrame™

VersaFrame™ is a modular seating line specially designed to offer versatility and long-term durability for challenging environments. The heavy duty, 16-gauge steel frame supports an endless number of configurations, enabling VersaFrame™ to be formed into rows of any length or as a stand-alone option. As an added bonus, VersaFrame™ is shipped flat packed to minimize packaging material use, improve shipping efficiency and help reduce our carbon footprint.

Features That Matter

Endless Configurations

Each piece in this collection is modular by design, allowing for an endless number of configurations and offering the flexibility to adapt to any planned or unplanned layout changes.

Flat Pack Shipping

This product is shipped flat packed to minimize packaging material use, improve shipping efficiency and help reduce our carbon footprint.

Optional Non-Removable Glides

Optional non-removable, steel encased floor glides protect the floor from scratching without risking the safety of residents and staff.

Bolt-Down Capability

For additional security, this chair can be anchored to the floor with an optional bolt-down kit.

Easy Cleanability

Bleach solutions and hospital-grade cleaners can safely be used for sanitation without affecting the surface material or color.

Extreme Durability

The heavy-duty, durable design offers enhanced safety for residents and peace of mind for staff.

Fluid Resistant

The one-piece, seamless seat construction is impervious to fluids for superior infection control and easy sanitization.

Tamper Resistant

Each piece in this collection is securely attached using tamper resistant hardware to support a safe environment for both residents and staff.

TruColor™ Technology

Our premium TruColor™ technology creates full and consistent coloring that is void of any streaks, speckles or other color disruptions.

Rounded Edges

Smooth, rounded edges provide a pleasing aesthetic and contribute to a safe design.
